Zyxaon Press, United States, 2010. Paperback. Book Condition: New. 279 x 210 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Reading Sharpener is my invention to improve my own reading skills. Even though my other reading improvement efforts did not improve my reading skills in lasting ways, Reading Sharpener worked brilliantly. And, it accomplishes much more. Sharper core vocabulary can improve abilities to read, write, listen, speak, learn from teachers, finish assignments, evaluate opportunities, and tell jokes. It can make life more interesting and fun. It can make successes easier to achieve. Sharper reading skills might double the value of the next year of your education. It changes your confidence and determination to complete assignments and tasks. Sharper reading skills will change your future. Additionally, the Reading Sharpener method uses breathing exercises to keep readers maximally alert while hunting through the Main Word List. The book goes on to explain several breathing exercises that use almost no time. These breathing exercises can help you develop greater breathing power. Greater breathing power can make running for exercise and health easier and more fun. It probably makes serious and minor illnesses less likely. It can give you advantages in sports competitions. It can change your physical appearance in a way most people find attractive. It can help make most activities more enjoyable by giving better physical fitness and a brighter attitude. If you generally don't like to read, start your approach with my bulldozer style of reading found on the first page of the Introduction. Do this and you might find all future reading easier. A good time to start reading this book is today! Don McHattie is also developing versions of this book for math and other fundamentals. Watch for Math Sharpener and Magic Breathing Exercise.
