

Going Green: The Irish Guide to Living a Greener Life

By O'Brien, Tony

Liberties Press, 2010. Paperback. Book Condition: BRAND NEW. Going Green: The Irish Guide to Living a Greener Life is a must-have guide to some of the major green issues facing Ireland and the world today: it both educates the reader on the issues themselves, and offers the practical ways we as individuals can help to save the environment. As words like climate change, green economy and Copenhagen hang on the lips of people across the country, this practical guide balances informing the reader of the issues at hand and giving hard, practical advice on what we can (and should) all do to help save our planet in a uniquely Irish context. From alternative energy, greenhouse gas emissions, government lip-service and the cycle-to-work scheme to biodiversity and farmer's markets and the importance of local, seasonal foods, Going Green offers expert advice and information on the major environmental issues facing us today. 176 pages. 19.4 x 13 x 2 cm.
