EXPERIMENTS WITH PLANTS: A FIRST SCHOOLBOOK OF SCIENCE (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Experiments With Plants: A First Schoolbook of Science The following chapters are intended not as a botanical lesson book, but as a general introduction to experimental science. General Plan. Attention may be drawn to one or two features of the course. 1. The various subjects have been considered in their relation to the living plant as a centre round which they may be grouped in a natural way. Thus it has been possible to include such topics as the composition of the atmosphere, the importance of water, physical characteristics of the soil, the meaning of chemical union, changes of state and latent heat, the nourishment and reproduction of plants - without, it is hoped, sacrificing continuity of treatment.
