ITS ALL RELATIVE. THE GOD FACTOR. HOW I VIEW OUR UNIVERSE

It's All Relative.The (G)od Factor. Paperback. Book Condition: New. Paperback. 122 pages. Dimensions: 9.0in. x 6.0in. x 0.3in.If you were to walk into a mall and ask fifty people what they thought was out in our universe, how many different answers would you get In an approachable, conversational style bringing together science and spirituality, Anthony Calistro asks some of the big questions and proposes his own thoughts on the possibilities of God and the universe in this unique and uplifting book. As he explains, I go to work every day like everybody else. Im not an astrophysicist or quantum physicist; Im just like the other ninety-nine percent of us, but still wonder how I fit into this universe, and where I came from. His personal experiences with God and the universe led him to develop a different theory on faith, nature, and the universal experience to share with the world. Together, tackle the science vs. God debate from a unique perspective, with three questions about life: Where did we come from and how did we get here Why are we here Where do we go when we die With discussions of miracles versus chaos theory, alternate dimensions, near-death and out-of-body experiences, and other unexplainable events that suggest there is more to the universe than science can explain, Calistro considers other ideas. From proposing new concepts for black holes, white holes, and worm holes as gateways for our souls, the particle accelerator in Switzerland and its capacity to help us travel through space, to his own theories of God based on scientific theories and the capabilities of the brain and our souls to travel the universe based on Einsteins Theory of Relativity, Calistro outlines an entirely new way to look at life, beginning with what you personally feel inside. Do you...
